Majority of Them May Never Receive I fees For Testifying in Court.

It is possible that some of the witnesses who testified for the defense in the Clyde H. Ellison murder case may never receive their fees, unless the defendant should come forward and pay them himself. That is hardly probable, however, as he swore to an impecuniosity affidavit just before the case was called for trial for the last time before Judge Morse.

It is that affidavit which is causing all the trouble. In it were the names of about eight or ten witnesses whom the defendant wanted summoned to appear in his behalf. The affidavit was sworn to on April 24. After that date it was in the custody of Attorney D. S. Truman, one of the attorney wrote in the affidavit, the names of persons whom he wanted to appear.

SUN HELPS BUSINESS.

Pleasant Weather Has Been a Decided Factor.

A few days of sunshine and balmy air are worth many thousands of dollars to merchants and to brokers in commercial securifies. The conjunction came last week, and everyooly felt happier. The chill air and overcast skies of the week before had a depressing effect on business. The reverse was true last week.

true last week.
"It would surprise you the difference
a few pleasant days make to us in dollars and cents," said a business man lars and cents," said a business man yesterday, in discussing the situation. "When it is cold and gloomy people feel depressed, and they won't buy, except as they need things or are given special opportunities. But let a few pleasant days come and they feel better. They begin to think of spending money and making investments, and pretty soon their money is coming out more freely."

Wholesale and retail trade was good Wholesale and retail trade was good last week.

"Jobbing business in seasonable lines is satisfactory." said George Rust, local manager for R. G. Dun & Co. "The outlook is favorable. There is a steady trade in groceries, hardware, lumber, harness, drugs and notions. Dry goods, clothing and shoes are seasonably quiet. Retail trade is fair and improving. Collections are better, but slow. Building is active, several big buildings being planned. Money is in fair supply and demand, with rates firm."

Although April was not especially active, merchants generally report an increase in business of 10 to 15 per cent over the same month last year.

Schlitz beer costs twice what common beer costs in the brewing. One-half pays for the product; the other half for its purity.

One-half is spent in cleanliness, in filtering even the air that touches it, in filtering the beer, in sterilizing every bottle. And it pays the cost of aging the beer for months before we deliver it.

If you ask for Schlitz you get purity and age, you pay no more than beer costs without them.
